### D'Ooge's Latin for Beginners

I have used **D'Ooge's Latin for Beginners** and can express only words of praise for it. The parallel treatment of English and Latin grammar, the position of the vocabularies, the method of tense formation, the dialogues and other interesting reading matter, together with the attractive illustrations, are features which have already appealed to both pupils and teachers.

## HALE'S FIRST LATIN BOOK

Prof. John S. McIntosh, Upper Iowa University, writes on May 6: I am using your First Latin Book in our preparatory school. I took the class myself in order to make the trial. I have long been an ardent advocate of another book which I have used for years. I have been more than pleased with the change. My class is doing excellent work as a whole. It began in late September. It finishes the last lesson tomorrow. We meet but four times a week.

My only regret is that I have not been using the book for the past year. In point of interest, clearness, and method of presentation it is without an equal so far as my knowledge goes. I feel that this class will be better prepared for Caesar than any class I have ever prepared.

## W H Y

"**A Latin Grammar**," by PROFESSOR H. E. BURTON, of Dartmouth College, is the best grammar for both secondary schools and colleges on the market to-day:

In it Latin seems more like a living language than in any other grammar.

Its treatment of the formation of words under the separate parts of speech is clear and logical.

It has a most effective method of showing the relative importance of the facts stated.
